

Quick summary:

	RTM (no SP)	SP1	SP2	SP3	SP4
SQL Server 2017 <i>codename vNext</i>	14.0.1000.169 <i>*new</i>				
SQL Server 2016	13.0.1601.5	13.0.4001.0 <i>or 13.1.4001.0</i>			
SQL Server 2014	12.0.2000.8	12.0.4100.1 <i>or 12.1.4100.1</i>	12.0.5000.0 <i>or 12.2.5000.0</i>		
SQL Server 2012 <i>codename Denali</i>	11.0.2100.60	11.0.3000.0 <i>or 11.1.3000.0</i>	11.0.5058.0 <i>or 11.2.5058.0</i>	11.0.6020.0 <i>or 11.3.6020.0</i>	11.0.7001.0 <i>or 11.4.7001.0</i>
SQL Server 2008 R2 <i>codename Kilimanjaro</i>	10.50.1600.1	10.50.2500.0 <i>or 10.51.2500.0</i>	10.50.4000.0 <i>or 10.52.4000.0</i>	10.50.6000.34 <i>or 10.53.6000.34</i>	
SQL Server 2008 <i>codename Katmai</i>	10.0.1600.22	10.0.2531.0 <i>or 10.1.2531.0</i>	10.0.4000.0 <i>or 10.2.4000.0</i>	10.0.5500.0 <i>or 10.3.5500.0</i>	10.0.6000.29 <i>or 10.4.6000.29</i>
SQL Server 2005 <i>codename Yukon</i>	9.0.1399.06	9.0.2047	9.0.3042	9.0.4035	9.0.5000
SQL Server 2000 <i>codename Shiloh</i>	8.0.194	8.0.384	8.0.532	8.0.760	8.0.2039
SQL Server 7.0 <i>codename Sphinx</i>	7.0.623	7.0.699	7.0.842	7.0.961	7.0.1063

Legend:

CTP	Community Technology Preview (beta release)
RC	Release Candidate
RTM	Released To Manufacturing; It is the original, released build version of the product, i.e. what you get on the DVD or when you download the ISO file from MSDN.
CU	Cumulative Update; Cumulative updates contain the bug fixes and enhancements—up to that point in time—that have been added since the previous Service Pack release and will be contained in the next service pack release. Installation of the Cumulative Update is similar to the installation of a Service Pack. Cumulative Updates are not fully regression tested.*
SP	Service Pack; much larger collection of hotfixes that have been fully regression tested. In some cases delivers product enhancements.
GDR	General Distribution Release; GDR fixes should not contain any of the CU updates.
QFE	Quick Fix Engineering; QFE updates include CU fixes.
CVE	Common Vulnerabilities and Exposures; publicly known information-security vulnerabilities.

* Since January 27, 2016: Microsoft recommends ongoing, proactive installation of SQL Server CUs as they become available. SQL Server CUs are certified to the same levels as Service Packs, and should be installed with the same level of confidence.
