

Usoclient.exe Parameter (Windows Update)

On using Sysinternal's Strings on Usoclient.exe, I found that there are more switches which can be used -

```
/StartScan Used To Start Scan  
/StartDownload Used to Start Download of Patches  
/StartInstall Used to Install Downloaded Patches  
/RefreshSettings Refresh Settings if any changes were made  
/StartInteractiveScan May ask for user input and/or open dialogues to show  
progress or report errors  
/RestartDevice Restart device to finish installation of updates  
/ScanInstallWait Combined Scan Download Install  
/ResumeUpdate Resume Update Installation On Boot
```
